

# 5-021.67 SACRAMENTO VALLEY - YOLO

## Basin Boundaries

### Summary

The Yolo groundwater subbasin is in the southern portion of the Sacramento Valley Basin and includes the majority of Yolo County. The northern, eastern and southern boundaries are predominately defined by the Colusa, Sacramento and Solano County lines, respectively. The subbasin includes the Solano County portion of the University of California at Davis and does not include the Yolo County portions of Colusa County Water District, Reclamation Districts 150, 307, 999, 2068, and 2093. The basin extends to the coast range on the west. The Capay Hills provide a barrier between the main part of the subbasin and Capay Valley, but Capay Valley is interconnected and part of the Yolo subbasin. The subbasin is defined by the 19 segments detailed in the descriptions below.
